**Re S.p.A. celebrates 50 years of innovation at Drupa**

Re S.p.A., an innovative leader in the printing and packaging industry, is excited to announce its participation in the next edition of Drupa, the world's leading trade fair for printing technologies, to be held in Dusseldorf, from 28 May to 7 June. After an eight-year wait, this year's event takes on special significance for Re S.p.A., as it happens with the company's 50th anniversary, a milestone that celebrates half a century of success, innovation and growth from a small basement in Milan to a well known multinational company.

**Innovation and technological excellence**

At this edition of Drupa, Re S.p.A. will show a wide range of products, solutions and services developed to meet the evolving needs of the printing and packaging industry. The focus will be on the launch of ReVision NET, the new state-of-the-art web viewing system designed for print quality control. This cutting-edge technology is designed to capture and reproduce every printed detail on the monitor with unparalleled colour accuracy, even in the most complex processes.

At stand 12 A45 in Hall 12, visitors will have the opportunity to explore Re web guiding system, which have distinguished themselves through exceptional quality standards and reliability. Moreover you can find solutions for web handling and web tension controls that have made and continue to make history in the industry.

A demo machine will allow visitors to test our solutions as they can use by themselves our equipment and value the high standard of Re S.p.A. offer.

**Half a century of excellence**

Being at Drupa also represents a significant moment for Re S.p.A., as the Italian company celebrates its 50<sup>th</sup> anniversary. Founded in 1974 in a small basement in Milan, Re S.p.A. has experienced extraordinary growth to become a globally recognized multinational. This milestone, not only highlights the company's growth and evolution, but also its constant commitment to innovation and excellence.

Drupa has always been a milestone for Re S.p.A. A place where we have shared successes and innovations. Celebrating our 50<sup>th</sup> anniversary here is particularly significant." Says Stefano Mercante, Marketing Manager of Re S.p.A. "We warmly invite you to visit our stand, where you can discover our latest innovations and celebrate this important milestone with us."

We look forward to seeing you a tour stand 12 A45 in hall 12 to explore together the future of printing and packaging and to celebrate Re S.p.A.'s 50 years of success.
