

ReDrive

BATTERY POWERED ROLL PUSHER

- ✓ Thrust force up to 20 tons
- ✓ Lift force up to 5 tons
- ✓ Speed max 14 m/min
- ✓ Compact dimensions
- ✓ Easy handling and maneuverability
- ✓ Stand-by function for energy saving
- ✓ Display for battery charge status

ReDrive is the eco-friendly battery powered roll pusher which makes moving heavy rolls easy.

It is equipped with a high performance plug & play 48V lithium battery which ensures long-lasting use between charges, thanks also to the stand-by function for battery saving.

Two XL rear wheels improve maneuverability and fluidity of movement. Dimensions and weight of ReDrive are optimized for ergonomic usability and exceptional performance.

ReDrive is provided with a color display with LED indicator to check the battery charge status. In this way you avoid running out of battery power when you need it.

Several models are available depending on the required thrust force and handle configuration.

ReDrive is also supplied with a durable battery charging station.

TECHNICAL DRAWING

HANDLE TYPES

TECHNICAL DATA

Battery	lithium 48 V
ReDrive charger supply	110V - 220V
Weight	32 kg - 71 lb
\varnothing roll max	2300 mm - 90 in
Handle types	straight - rotating or "S" - swivel pivoting

	RDV.61	RDV.81
Thrust force	14 tons	20 tons
Lift force	3,5 tons	5 tons
Speed max	14 m/min - 46 ft/min	11 m/min - 36 ft/min
