

MWG10.1

CONTROL UNIT

- ✓ High regulation speed
- ✓ High levels of thrust
- ✓ Noiselessness
- ✓ Very high response speed
- ✓ 2,8" LCD color graphic display
- ✓ User-friendly graphic
- ✓ Ease of use and calibration

MWG10.1 is the new release of the MWG10 webguide and pin to pin compatible with it. MWG10.1 is a device for the regulation of the web position using sensors and actuators.

MWG10.1 control unit, integrates the control logic and the power driver for motors in a single and very compact case. It is equipped with a 2,8" LCD color graphic display which ensures a rapid and user-friendly human-machine interaction and some mechanical buttons for an easy calibration and management of the system.

MWG10.1 is provided with analogue inputs for sensors and a CAN interface for the Re latest generation sensors and optical ones.

All the mechanical devices are equipped with latest generation stepping motors so that they not require regular maintenance and guarantee a quick and precise movement.

If required, is it available the remote keypad and the MWG10.1 WD for remote keypad.

MWG10.1 is able to work with motorized sensor holder and, using two sensors, as the material width reader.

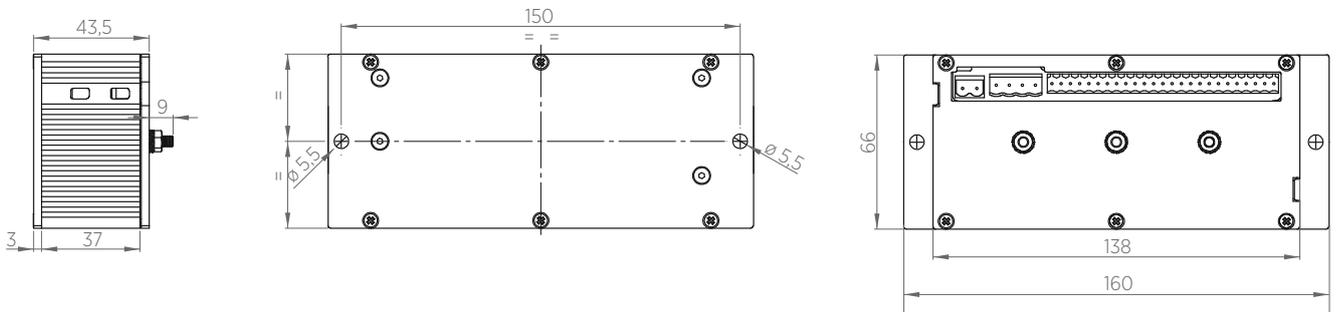

TECHNICAL DRAWING

REMOTE KEYPAD

MWG10.1 WD for remote keypad

TECHNICAL CHARACTERISTICS

Power supply	24 V
Power consumption	4 A
Response time	1 ms
Analogue inputs	2 inputs for sensors 0÷5 Vdc (12bit)
Digital inputs	4 inputs for remot controls 12÷24 Vdc
Digital outputs	1 output open collector
Fieldbus	CAN Re (proprietary protocol)
Working temperature	0÷50° C
Protection class	IP20 case IP51 frontal panel
